

## The Free Limited Company Offer

Sounds too good to be true? We're not giving away companies to anyone who wants one, that would be crazy (we're accountants!), but we are setting them up free of charge for all new start-up accounts clients who need them.

There are absolutely no hidden activation fees or charges, as soon as you sign up to our Start-up Company Package we take care of the registration of your company at Companies House, appoint your directors, issue your shares and send you the documents within hours of registration.

Our Start-up Package is ideal for new companies who want to spread the cost of their accountancy and payroll needs; for just £60 per month we will provide all the advice you need, operate payroll for up to 5 employees, file your tax returns and complete your company's year end accounts.

This represents a substantial saving compared to paying annually, and means that you can budget for your accountancy and not be presented with an unexpected bill at the end of the year.

What's more there's no minimum term so you won't be stuck paying us if you decide it's not for you or you close the company.
